

A Hitler by Any Other Name

Contributed by Cain Jorgenson

In 1928 the greatest mass murderer of our, or any other time, discovered a drug that would slaughter untold trillions of innocents worldwide. Alexander Fleming, the so-called Father of Penicillin let loose on this earth an evil so great that its effects can scarce be put into words.

At about the same time, in another part of the world, another mass murderer was coming into power, Adolph Hitler. But the leader of Germany was a rank armature compared to Fleming. Hitler killed somewhere between twenty and forty million Jews and was responsible for maybe another ten million war deaths on all sides. While Heir Fleming is single handedly responsible for the death of at least nine hundred trillion (that's right, trillion with a "T") single cell life forms. And the killing continues unabated. Through laboratories (laboratory's + crematoriums = laboratories) sponsored by the fascist Bush Federal Government, and capitalist companies such as Lysol, Johnson & Johnson, and Purell (to name only a few).

Even the illegal war in Iraq is nothing more than a front for the extermination of billions upon billions of innocent germs in third world countries. Bush and his aids (they don't deserve the title of such a glorious disease) not only want to steal oil from the middle east but plan on the complete de-bacterialization of all Moslem countries. This is the real thrust of their agenda.

The arrogant Bush administration, not satisfied with the systematic destruction of germs, bacteria and viruses in our own country, is bent on a policy of worldwide domination and sterilization of single celled organisms throughout the planet, thus continuing the true Hitler, Fleming's, plan of genocide. This must not be allowed to Happen.

When will we, as people of Mother Earth and all Her creatures, stop the killing? I say the time is now, and the place is here.

Let us band together to stop the slaughter and live in peace with our microscopic brothers and sisters. For truly, a Hitler is a Hitler is a Hitler.
